Dental Health Certificate- Optional

Parent/Guardian: New York State law (Chapter 281) permits schools to request a dental examination in the following grades: school entry, K, 2, 4, 7, & 10. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your dentist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.

MEDICATION PROCEDURE

New York State Education Law prohibits school nurses from dispensing medication to school children without specific, written authorization from parents and the family doctor.

This applies to prescription drugs and over the counter items. This includes creams, ointments, sunscreen, eye drops, nasal sprays, and throat lozenges.

If parents expect a medication to be dispensed to a child during the hours he/she is in school, the following requirements must be met in each specific case of treatment:

1. From the family doctor – a written request indicating frequency and dosage of a prescribed medication.
2. From the parent – a written request to administer the medication as specified by the doctor.
3. A supply of the medication in a pharmacy labeled container.
4. By the parent – direct personal delivery of the medication to the school nurse.
5. Controlled substances must be counted by the school nurse and parent when the medication is delivered to school. At this time both nurse and parent must sign for the medication.
6. Initial doses of medications cannot be administered at school.

The authorization described above does not carry over from one school year to the next. **It must be updated with the start of each school year.**
